

AN EXPERT TEAM THAT TREAT YOUR PROJECT LIKE THEIR OWN

Here at Ruach, we believe in great customer service. It's what the brand was built on, and it's the root of all of our positive online reviews and great local reputation.

When you're looking for a company to design and install a beautiful new kitchen, you want someone that you can trust to deliver your dream interior quickly and efficiently. Like with all great projects, you need to break a couple of eggs to make an omelette, but over the years, we've refined our processes and systems to make sure each and every one of our customers experiences a smooth journey from the inception of the idea, all the way through to enjoying your first meal in your brand new kitchen interior.

Say hello to the people behind Ruach...

CREATING MULTIFUNCTIONAL SPACES TO SUIT EVERY LIFESTYLE

"I particularly enjoy the challenge that each kitchen design brief brings. It is important that a kitchen is both functional and aesthetically pleasing.

At Ruach we pride ourselves in creating practical spaces with the wow factor. I enjoy working along side my customers to create a multifunctional space that suits their lifestyle.

Being part of such an important space is very rewarding. One project that I particularly enjoyed was for a client in Knockholt. They wanted to completely re-think the way they used the space and we managed to design in an island with a built in curved bench seat. Opposite the island we incorporated their existing range oven which we designed a bespoke mantle above. They were then able to cook, entertain and socialise in this space, something that was very important to my client."

AN ABILITY TO PUSH DESIGNS TO THEIR MAXIMUM POTENTIAL

"What I love most about working at Ruach is our ability to push designs to maximise what is possible with each product and provide a unique kitchen tailored for the customer. Many of our customers know exactly what they want and we are able to work together to find the perfect solution. I get the most satisfaction when the client is completely over the moon with their new kitchen.

One of my favourite styles is the shaker. The traditional styles give us a real opportunity to make a kitchen that feels truly inviting and homely; a place to call home and somewhere that will be a big part of a family's life for many years to come."
